

Himanshu Singh

Mobile Automation Engineer | QA Automation Engineer | SDET

singhhimanshu9415@gmail.com | +91 8528692848 | LinkedIn | GitHub

Professional Summary

QA Automation Engineer / SDET with 2.5+ years of experience in Mobile, Web, API, and Backend Testing. Specialized in Appium, Selenium WebDriver, TestNG, Rest Assured, CI/CD, and Automation Framework Development. Proven expertise in Android/iOS testing, API automation, database validation, and performance testing. Automated 250+ test scenarios, reduced regression effort by 70

Work Experience

QA Engineer (SDET) — Delhivery, Gurgaon

Oct 2025 – Present

- Designed and developed Appium-TestNG hybrid automation framework supporting Android automation, API validation, reporting, and CI/CD integration.
- Automated logistics workflows including pickup, dispatch, package tracking, OTP verification, and delivery completion.
- Built end-to-end automation covering Mobile UI, REST APIs, and Database validation.
- Implemented parallel execution reducing regression execution time by 40%.
- Developed REST API automation suites using Rest Assured and integrated Jenkins CI/CD pipelines.
- Collaborated with product and engineering teams for defect triage and release sign-off.

Associate QA Engineer — University Living, Noida

May 2024 – Oct 2025

- Performed Android and iOS testing for Booking Flow, PLP, PDP, RLP, VAS Services, and Study Abroad modules.
- Executed Functional, Regression, Smoke, Sanity, UAT, and Exploratory Testing across mobile and web platforms.
- Automated 200+ test cases reducing manual QA effort by 70%.
- Built AI-based voice-command automation framework using Vosk, Selenium, Appium, and TestNG.
- Performed API testing, database validation, Firebase analytics validation, deep link testing, and payment workflow testing.

Software Engineer Trainee — IDEMIA, Noida

Mar 2023 – Sep 2023

- Performed integration testing of mID Verify SDK across Android and iOS platforms.
- Automated mobile workflows using Appium and Java.
- Validated BLE, NFC, identity authentication, and document verification workflows.

Technical Skills

Languages: Java, Python, JavaScript

Mobile Testing: Android Testing, iOS Testing, Real Device Testing, Emulator Testing, Mobile UI Testing, Deep Link Testing, Push Notification Testing, Firebase Validation

Automation: Appium, Selenium WebDriver, TestNG, POM, Hybrid Frameworks, Data-Driven Frameworks, Parallel Execution, TestNG Listeners

API Testing: Rest Assured, Postman, Newman, Swagger, OAuth 2.0, JWT Authentication, JSON Schema Validation

Manual Testing: Functional, Regression, Smoke, Sanity, Exploratory Testing, UAT, STLC, SDLC

CI/CD & Build Tools: Jenkins, Maven, Gradle, Git, GitHub, Bitbucket

Databases: MongoDB, MySQL, SQL Queries, Database Validation

Tools: Jira, Confluence, Android Studio, Xcode, Firebase, Charles Proxy, ADB, BrowserStack, LambdaTest

Projects

Mobile Automation Framework

- Developed Appium-TestNG framework supporting Android automation, reporting, retry mechanisms, and parallel execution.

REST API Automation Framework

- Built reusable Rest Assured automation framework integrated with TestNG and Jenkins.

AI-Based Voice Command Automation Framework

- Developed voice-triggered automation system using Vosk integrated with Selenium and Appium.

Education

B.Tech in Computer Science and Engineering — PSIT College of Engineering, Kanpur
CGPA: 8.23/10

2023
